

Pamplona - Buxtehude exchange news

AN UNFORGETTABLE EXPERIENCE

From 23/01/15 to 30/01/15 the Spanish exchange group from our partner school in Pamplona came to Buxtehude for their exchange trip with our Spanish group in grade ten.

It was an amazing time for all of us. We learned more about being together with young people from another country, about cultural differences. We even learned more about the region around our city Buxtehude.

It all started with a trip to Hamburg and its famous attractions like the Elbtunnel or the Warehouse-district. Moreover, we went to Lüneburg for learning more about the "Hanse League" and we had a rally through Buxtehude to give our exchange partners an idea about the place which would be their home for one week.

The film project "Outsourced" at school and the whole programme we had (tours, guided visits etc) was in English, which meant that we could communicate in one language to improve our English skills and theirs.

It didn't take long to get to know each other and to form new friendships, so everyone is looking forward to the exchange in Pamplona in March and is excited to meet our Spanish friends again.
